AccountMate Releases New Modules and Upgrades SQL Accounting Software

AccountMate 10 for SQL & Express Includes New Sales Configurator and Manufacturing Configurator Modules

AccountMate Software Corporation has released the latest version of its SQL and Express accounting software lines, which now number 22 modules each. The latest release adds Sales Configurator and Manufacturing Configurator to round out the accounting system which uses the latest Microsoft SQL Server technology.

This upgraded version also includes significant improvements to the payroll module. For an additional fee, source code is also available for each module. AccountMate Software is known for its highly-customizable accounting software systems. This latest version of AccountMate 10 for SQL and Express continues this legacy.

Some of the new feature highlights are:

- New Sales Configurator and Manufacturing Configurator modules facilitate reduction of order entry time, order entry errors as well as the assurance that any configuration ordered can be built and delivered
- Enhanced Audit Trail feature provides the capability to track data entry changes by transaction, including locating amendments made to a transaction
- Supports multi-level pricing through a combination of price codes and order quantity breaks

AccountMate 10 for SQL and Express is available for new clients as well as providing an upgrade path for current AccountMate clients. It continues to add functionality and value that clients have been receiving from AccountMate since 1984.

About AccountMate

Founded in 1984, AccountMate develops and markets fully modifiable business accounting software. Systems range from single user versions to those that support hundreds of users simultaneously. AccountMate software is available for local or cloud installation. It is distributed exclusively through a worldwide channel of authorized solution providers. AccountMate can be reached at (800) 877-8896 or at accountmate.com.
