

## AMmobile Sales Tracker

---

### Product Description

AMmobile Sales Tracker is designed for companies that have the desire to track their sales cycle from beginning to end easily, efficiently, digitally, and while on the go.

With AMmobile's Sales Tracker, you can create and manage leads, prospects, customers, quotes, orders and follow-up tasks relating to each. You have access to live inventory data including on-order, on-hand and booked quantities, prices and inventory images. You can see up to date customer transactions, customer balances, and get driving directions to a customer's location.

Also available are graphical sales trends charts with drilldowns that show top customers, territories, items, product lines, classes and salespeople along with increases and decreases in each area, including a 3-year history.

### Company Profile

iSOFT Systems, LLC has offices throughout the US and in Canada. Since 1990, we have delivered thousands of modifications and provided top quality support to the AccountMate community. The goal of iSOFT Systems, LLC is to develop long-term relationships with our customers by providing professional, competent and courteous service. We strive to increase efficiency in our customer's information systems and personnel with a commitment to honesty, integrity, and quality.
