

AccountMate is a real-time, customizable financial and business management software solution designed to address the needs of small to medium-sized businesses.

It takes advantage of the speed of client/server technology and the latest productivity-enhancing tools in Microsoft's suite of products to help you better manage your business.

Features and Benefits:

- Fully Customizable
- Secure Server Environment
- Remote Access 24/7
- System Monitoring
- Safe from fire, theft, flood and natural disasters
- Back-up Service
- Easy growth
- Fixed monthly costs

AccountMate in the Cloud for SQL and Express

With AccountMate in the Cloud you can minimize your IT infrastructure and costs associated with having to purchase and maintain computer hardware. Cloud computing is a viable option for those who decide that a remote access strategy is more practical than having an on-premises business financial suite.

The same AccountMate intuitive accounting solutions are available through a monthly subscription option. The AccountMate application is housed in a secure multi-user virtual machine environment, safe from fire, theft, flood and natural disasters. Users will have 24/7 access and the cloud machine environment is compatible with AccountMate's source code technology.

AccountMate Offers Three Private Cloud Options

Software-as-a-Service (SaaS) for AccountMate for SQL – Your unique perpetual license for AccountMate SQL, SQL Server and MS 365 software, including the applicable software maintenance and associated hosting service fees within a single monthly subscription fee.

Software-as-a-Service (SaaS) for AccountMate for Express – Your unique perpetual license for AccountMate SQL Express, and MS 365 software, including the applicable software maintenance and associated hosting service fees within a single monthly subscription fee.

Hosted – Hosted solutions are implemented in the same manner as if they were installed onsite and can be accessed 24/7. Your virtual machine environment is configured to your unique business requirements within a single monthly subscription fee.

Fully Customizable Functionality

No matter the cloud option you choose, AccountMate's fully customizable functionality is still available. AccountMate's source code modifiable flexibility allows AccountMate's Solution Providers to customize or modify your application to best fit the unique needs of your business processes. Our software applications can adapt as your business changes and grows.

Data Storage, Back-up and System Monitoring

AccountMate partners with an industry leading application hosting datacenter with services located around the world. These are Tier III datacenters with 24/7/365 video surveillance and RFID access, with fully redundant power & network backup systems.

Client data is automatically backed-up daily and recovery system protocols are in place to prevent loss of data and skilled technicians monitor network performance 24 hours a day, 365 days a year.
